

Logesta Labs LLC is a minority-owned custom software development company delivering secure web applications, workflow automation, data integration, document-processing solutions and AI-assisted knowledge systems. We help government organizations and prime contractors modernize manual processes, connect fragmented data sources and deploy reliable cloud-based applications.

CORE COMPETENCIES

- Custom internal web applications
- API and systems integration
- Operational dashboards
- Secure organizational knowledge search
- Cloud application development
- Full-stack TypeScript, React and Node.js development
- Workflow and approval automation
- Data ingestion and transformation
- Document extraction and processing
- AI-assisted document retrieval
- Application modernization and maintenance

CORPORATE EXPERIENCE

Captivaq (captivaq.com) — A government-opportunity intelligence platform demonstrating public-data ingestion, search, matching, scoring, notifications and workflow automation.

Onirix (onirix.ai) — An enterprise knowledge platform demonstrating document ingestion, permission-aware search, organizational integrations and AI-assisted information retrieval.

BenefitRecon (militarybenefit.app) — A production mobile application demonstrating location-aware discovery, public-information aggregation, searchable listings and cross-platform mobile delivery.

These products demonstrate Logesta Labs' corporate technical experience. They should not be interpreted as government-commissioned projects or federal contract past performance.

SUBCONTRACTING WORK PACKAGES

- Internal portals and dashboards
- Data pipelines and migrations
- AI-assisted knowledge-search systems
- React and Node.js development
- Short development sprints and proofs of concept
- API integrations
- Document-processing prototypes
- Application modernization
- Testing, maintenance and feature development

COMPANY DATA

Legal name
Logesta Labs LLC
